

MY GRADUATE PROGRAM TIMELINE

PhD in Technology · Purdue Polytechnic Institute · Spring 2026 – Fall 2029

Md Kamruzzaman Kamrul

Bowen School of Construction Management Technology

Advisor: Dr. Heung Jin Oh · Wii Lab · CSE Concentration

MY GRADUATE PROGRAM TIMELINE

Kamruzzaman Kamrul · PhD Technology · Purdue · Spring 2026 – Fall 2029

4-YEAR PATH: PHASES & KEY DELIVERABLES

Each milestone builds on prior coursework with specific outputs

PHASE 1: FOUNDATION
Sp'26 – Sp'27
• Front-load core & tech courses • Begin literature review (200+ papers) • Establish committee • Research problem identification
✓ Research direction approved

PHASE 3: PROPOSAL
Sp'28 – Fa'28
• Write proposal (30-50 pages) • Finalize research design & methods • Plan data collection strategy • Prepare proposal defense
★ PROPOSAL DEFENSE (Fa 28)

PHASE 2: QUALIFICATION
Su'27 – Fa'27
• Co-op internship (Jun-Aug) • Prelim exam preparation • Methodology development • Complete preliminary research outline
★ PRELIM EXAM (Fa 27)

PHASE 4: COMPLETION
Sp'29 – Fa'29
• Intensive data collection & analysis • Write Ch 1-4 (Intro, Lit, Methods, Results) • Dissertation composition • Final defense & graduation
★ FINAL DEFENSE (Fa 29)

KEY MILESTONES: REQUIREMENTS & RATIONALE

PRELIMINARY EXAM (Fall 2027)

Requirement	Written comprehensive exam + Oral defense + Committee approval
Deliverables	Pass both written + oral exams Submit approved outline Committee signs candidacy
Timeline	End of Year 2 (Semester 5) — Standard PhD progression
Intensity	20+ hours/week — Focused on exam prep & research design

PROPOSAL DEFENSE (Fall 2028)

Requirement	Defend 30-50 page proposal with full committee
Deliverables	Present & defend proposal Submit approved document Committee approves method
Timeline	12 months after Prelim — Allows methodology development
Intensity	18-20+ hours/week — Proposal writing + preliminary data collection

DATA COLLECTION & ANALYSIS (Sp-Su 2029)

Requirement	Acquire, validate, and analyze dissertation dataset(s)
Deliverables	Complete ≥1 validated dataset Preprocessing pipeline documented Results generated
Timeline	Semesters 9-10 — Peak research phase
Intensity	25+ hours/week (peak) — Full-time research focus

FINAL DEFENSE (Fall 2029)

Requirement	Oral defense & approval of completed dissertation
Deliverables	Final dissertation approved by committee Pass oral defense ETD submission
Timeline	End of Year 4 (Semester 11) — 4-year completion
Intensity	25+ hours/week — Final writing, revisions, defense prep

COURSE INVENTORY & CREDIT BREAKDOWN

TRANSFER — GSU MS (21 cr)
CIS 8005 Data Programming (3cr)
CIS 8398 Advanced AI for Business (3cr)
CIS 8695 Big Data Analytics (3cr)
CIS 8795 Big Data Infrastructure (3cr)
CIS 8080 IS Security & Privacy (3cr)
CIS 8045 Unstructured Data Management (3cr)
CIS 8690 Topics in Information Systems (3cr)
SPRING 2026 — Current (10cr)
STAT 52000 Time Series & Applications (3cr)
CS 59300 Computer Vision (3cr)
ECE 59500 Selected Topics in ECE (3cr)
TECH 60300 Grad Seminar – Planning (1cr)
FALL 2026 (10cr)
MET 52700 Technology: Global Perspective (3cr)
STAT 50100 Experimental Statistics I (3cr)
TECH 60100 Research Seminar in Technology (1cr)
TECH 64600 Analysis of Research in Industry (3cr)
SPRING 2027 (9cr)
TECH 67600 Analysis of Research Methods (3cr)
CS 57800 Statistical Machine Learning (3cr)
CS 52000 Computational Optimization (3cr)
SUMMER 2027 — CO-OP
Industry Internship (3 months)
FALL 2027 — ★ Prelim Exam
STAT 52400 Applied Multivariate Analysis (3cr)
GRAD 68900 CSE Seminar (0cr)

SPRING 2028 — Proposal Writing (3cr)
STAT 51400 Design of Experiments (3cr)
GRAD 68900 CSE Seminar (0cr)
SUMMER 2028 — Proposal Dev
TECH 69900 Dissertation (proposal draft)
FALL 2028 — ★ Proposal Defense
ECE 57000 Artificial Intelligence (3cr)
GRAD 68900 CSE Seminar (0cr)
SPRING 2029 — Data Collection
CS 58000 Algorithm Design & Analysis (3cr)
GRAD 68900 CSE Seminar (0cr)
SUMMER 2029 — Analysis & Writing
TECH 69900 Dissertation (analysis phase)
FALL 2029 — ★ FINAL DEFENSE 🎓
TECH 69900 Dissertation Defense
Graduation

CREDIT SUMMARY: Transfer GSU 21cr + Purdue Coursework 41cr + Dissertation 41cr = 103cr Listed | Graduation: Fall 2029

PROFESSIONAL DEVELOPMENT & IDP GOALS

GOAL 1: ACADEMIC PUBLICATIONS

Timeline: Phase 1-4 publications integrated into research phases

Target: 5+ journal articles + 5+ conference papers by graduation

Plan: Phase 1 (1 paper) → Phase 2 (1-2) → Phase 3 (2-3) → Phase 4 (1-2 final)

Status: ✓ On track (publications embedded in Gantt)

GOAL 2: TECHNICAL MASTERY

Deep Learning: CS 59300 (Vision), CS 57800 (ML), ECE 57000 (AI)

Time Series: STAT 52000, STAT 52400, STAT 51400

Optimization: CS 52000, CS 58000

Target: 300 LeetCode problems + Cloud cert by Summer 2027

Status: ✓ Courses front-loaded; co-op summer for coding sprint

GOAL 3: INDUSTRY EXPERIENCE

Co-op Internship: Summer 2027 (3 months, Jun-Aug)

Placement: Strategic gap between foundation & prelim phases

Focus: Industry tech skills (cloud ML, DevOps, data engineering)

Future: Internship opportunities in Year 3-4 as time permits

Status: ✓ Scheduled; aligns with post-co-op CSE courses (Fa27 onward)
